

DataWriter for ADS

DataWriter for OMD and ADS provides the connection to assure accurate synchronization of OMD and ADS. DataWriter also provides the ability to create reports and extract data from OMD in a variety of formats.

Annual Support Agreement: Data Writer's annual software support agreement assures rapid response to problems that may arise, and assures that the OMD—ADS synchronization will continue to work with operating system upgrades and new software releases from OMD.

New Releases / Maintenance Upgrades are included in the contract at no extra charge except for shipping.

Telephone Support is provided as needed, at no additional charge, while the contract is in force.
